

BOFA PURE *Beauty*

...fume extraction for the hair & beauty industry

Clean air, fresh salon

The Bofa Pure Beauty Plus system has been especially designed for the hair and beauty industry to extract and remove harmful fumes and air borne dust generated in the salon environment.

Extracts harmful fumes and dust:

The hazards associated with quick-dry nail sprays, nail varnishes and removers, as well as nail extension materials need to be assessed under the COSHH regulations. The main concern is the inhalation of dust or solvent fumes produced when using the products mentioned above.

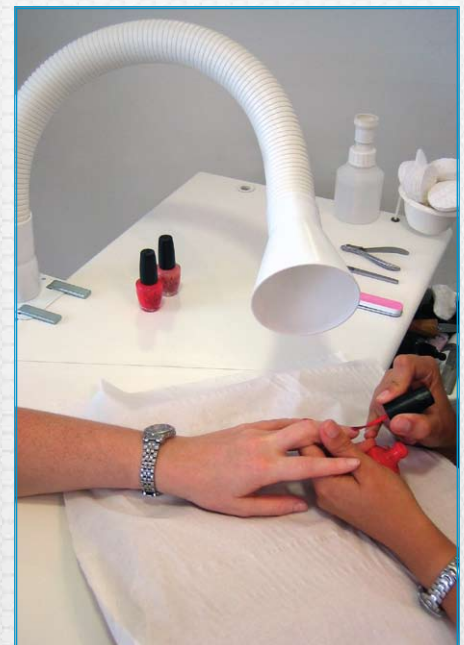

Many of the current nail desk extractors simply recirculate the solvent laden air within the salon. The multi-layered pre and chemical filters in the Bofa Pure Beauty capture all the contaminants and return clean air into the salon.

No need to replace existing furniture.

Ideal for the salon environment, the Pure Beauty extraction system will fit easily into any salon, without the need to replace existing nail stations or furniture.

Comes complete with:

- 50mm stay put extraction arm
- Installation flex
- Table Bracket
- Filter Blocked Indicator
- Pre filter
- Granulated Carbon Gas Filter

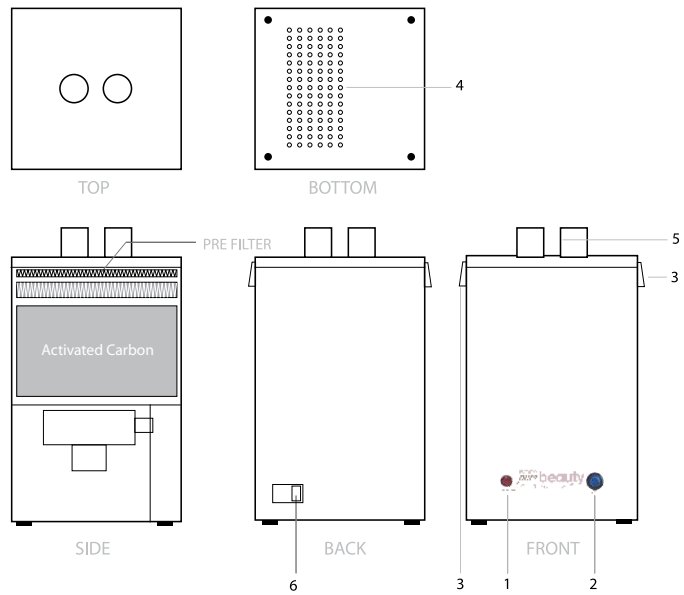

TECHNICAL DATA

Model	Pure Beauty Plus
Dimensions (h x w x d)	380 x 260 x 260 mm 14.9 x 10.2 x 10.2"
Cabinet Construction	Powder coated mild steel
Flow Rate	180m ³ /hr 106cfm
Rated Output	140w
Electronics	230v 1ph 50/60Hz Full load current: 0.9 amps
Weight	7kg 15.4Lbs
Noise level	54dBA

FILTER

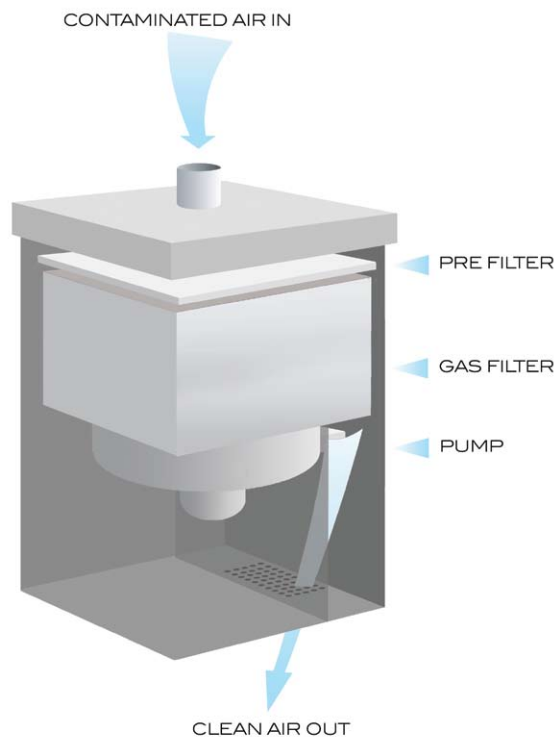

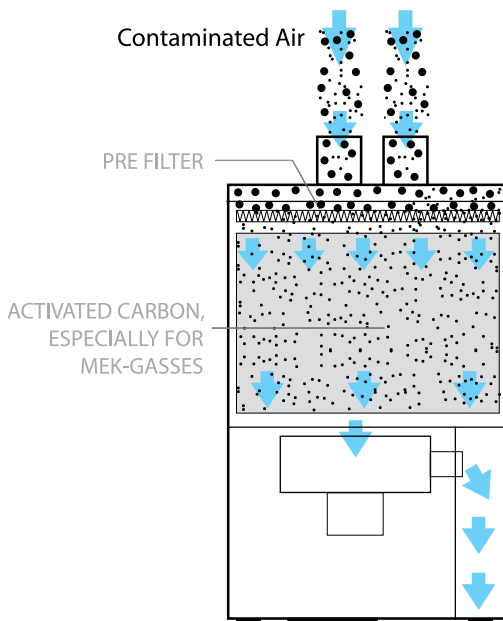

Pre-filter	F8
HEPA	H13 (99.997% @ 0.3 microns)
MEK	Activated carbon

TECHNICAL SPECIFICATION

1. Unit/Filter Condition Display
2. On/Off Switch
3. Filter Compartment Latch
4. Motor Cooling Inlet / Exhaust Outlet
5. Hose Inlet Connection 50mm
6. Power Cable
